SCORE THE WEEK

Daily tape checks (3 rows × 7 days, count them)	_____ of 21
Walks — count your days, max 2 credit	_____ of 2
Strength — count your days, max 2 credit	_____ of 2
The Move complete? (5 walk days) — score 1 if yes	_____ of 1

Week total _____ **of 26**

Shade your ring: 21 or more — shade Week 6's segment **solid**. 13 to 20 — shade it **half**. Under 13 — leave it open and circle what broke; that's Wednesday's conversation.

Your ring. The full ring lives on page 3 — twelve segments, one per week. Shade this week's segment there, then look at the shape of the thing you're building. The app computes this automatically; on paper, you earn it twice.

What moved this week?

Energy, sleep, the mirror, her — one honest line.

One line to the face you named on page 1.

He's why the ring matters. Write to him, not about him.

Next week — Week 7, The Move: Add one intensity day — hills or sprints. Same tape. One new Move. The ring keeps score.
